SUMMARY

Aspiring Full Stack Developer with experience building scalable web applications and API-driven platforms using React, Node.js, Express, MongoDB, and SQL. Skilled in developing responsive interfaces, REST APIs, authentication systems, role-based access control, and database-driven applications, with a focus on building secure, reliable, and user-friendly solutions.

EDUCATION

ITM SLS Baroda University

Bachelor of Technology (B.Tech) – Computer Science Engineering

Vadodara, Gujarat

July 2023 – June 2027

Shreyas Vidyalaya

Higher Secondary Education – Science Stream

Vadodara, Gujarat

June 2021 – May 2023

PROJECTS

SafeLease — Property Management Platform

React, TypeScript, Node.js, Express, MongoDB

- Built a full-stack platform for tenants, owners, and admins to manage properties, rent cycles, complaints, and notices.
- Implemented automated rent cycle engine, email OTP two-factor authentication, real-time notifications, and branded transactional email delivery for end-to-end property lifecycle management.

SaaS Platform

Next.js, React, Node.js, Prisma, SQL

- Designed and developed a SaaS platform with authentication and subscription plans.
- Implemented API key generation and usage tracking.
- Created dashboards to monitor API usage and subscription management.

Flight Management System

HTML, CSS, JavaScript, PHP, MySQL

- Developed a system for flight search, booking, and cancellation.
- Implemented an admin panel to manage flight schedules and booking records.

Art Gallery Management System

PHP, MySQL

- Built a platform to showcase artworks and manage customer enquiries.
- Developed an admin panel for artwork management and enquiry handling.

SKILLS

Programming Languages: Python, C, Java, Php, JavaScript, SQL

Frontend: HTML5, CSS3, React, Bootstrap, Tailwind CSS

Backend: Node.js, REST APIs, Authentication

Databases: MySQL, MongoDB, Prisma

Tools & Technologies: Git, GitHub, Postman, .NET Framework

Concepts: DBMS, OOP, API Development, Problem Solving

CERTIFICATIONS

- JavaScript (Intermediate) – HackerRank
- 3 Day AI Masterclass – OutSkills
- AI Productivity Skills – Microsoft & LinkedIn

EXPERIENCE

WebIdeal Software Solutions

Remote

Full Stack Developer Intern

June 2026 – Sep 2026

- Develop responsive front-end applications and user-friendly workflows using modern web technologies.
- Contribute to back-end development, API integration, and database management.
- Work on AI and automation features while participating in testing, debugging, and product enhancements.
- Collaborate with product, design, and engineering teams on live SaaS products.

HACKATHON ACHIEVEMENT

iDEA 2.0 — AI-Driven Early Warning System for Internal & Privileged User Fraud

ThreatLens | Team Dhurandhars

Top 32 of 1,500+ submissions

- Built ThreatLens, an AI-driven early-warning system focused on detecting internal and privileged-user fraud.
- Implemented behavioral anomaly and insider-threat detection, multi-step attack-chain monitoring, and privileged-user monitoring.
- Analyzed suspicious access, off-hours activity, and VPN anomalies, with honeytrap concepts for proactive detection.
